

PROPOSAL FOR AMORA IMANI

LUXURY FASHION E-STORE REDESIGN

Elevating digital commerce through bespoke, high-fidelity experience design.

01 THE VISION

A completely custom front-end redesign aligning the e-store's digital presence with its luxury, high-end physical positioning.

02 THE SERVICE

From bespoke development to 12 months managed hosting, custom customer support chatbots, and regular analytical reporting.

03 THE EXECUTION

A streamlined 2–3 week launch timeline under a structured, value-driven pricing of £1,800 GBP total investment.

BESPOKE UI/UX & VISUAL IDENTITY

A high-fidelity single-page storefront meticulously designed to project Amora Imani's luxury positioning and elevate customer trust.

Custom typography structures, tailored grid architectures, and absolute brand alignment.

VISUAL ASSETS & THEME

TAILORED LUXURY THEME

Custom color palette, premium typography layout (**Inter Sans-Serif**), bespoke UI elements, hero video slideshows, and lookbook grids.

E-COMMERCE INTERACTION

INTERACTIVE PRODUCT DISPLAY

Dynamic product carousels, immersive quick-view product modals, interactive size-guide charts, and high-resolution hover effects.

LOCAL PERSISTENCE

LOCALSTORAGE CART FLOW

A fully functional cart drawer that stores items in the customer's browser, enabling checkout flows and returning-visit memory.

CLEAN ENGINEERING

BESPOKE PERFORMANCE

No restrictive templates or slow website-builder plugins. Lightweight, custom code compiled and consolidated directly from existing WordPress media.

A FULLY-MANAGED DIGITAL EXPERIENCE

ID	SERVICE SPECIFICATION	IMPLEMENTATION DETAILS
01	WEB DESIGN & BRANDING	Complete UI/UX layout design engineered exclusively to echo Amora Imani's luxury positioning. Includes visual identity mapping, responsive structural framework, and precise type scale implementation.
02	GLOBAL MANAGED HOSTING	12 months of high-performance managed hosting served via Cloudflare Pages' global CDN. Ensures ultra-fast image caching, zero-downtime server scaling, and pre-configured automatic SSL protection.
03	ONLINE STORE MAINTENANCE	Continuous product catalog sync, inventory display management, code performance checkups, search function calibration, and secure static code deployments throughout the entire contract year.
04	MONTHLY REPORTS & ANALYTICS	Granular monthly analysis of customer traffic patterns, click-through behaviors, sales conversion ratios, geographical segmentations, and actionable web performance optimization insights.
05	AI-POWERED SUPPORT CHATBOT	Implementation of an automated customer service chatbot. Trained to address sizing questions, order tracking, shipping policy queries, and return protocols, offering 24/7 client care.
06	3-MONTH POST-LAUNCH SUPPORT	Dedicated quality-assurance buffer for urgent bug resolution, quick copy revisions, minor layout iterations, and post-launch coaching for standard dashboard updates.
